

VIRTUAL WATCHMAN ROAD CAMERAS LINKED LIVE TO POLICE COVERT PLATFORM

Real-Time Criminal and Vehicle Detection – Before They Reach Your Property

Businesses lose thousands when thieves cut through gates or bollards, stealing vehicles and property before anyone even knows.

Virtual Watchman deters felons nearing premises. System automatically checks if vehicle is wanted by police covert platform with instant notification to police mobile patrol.

MAJOR BENEFITS

1. Smart Vehicle Capture - Reads number plate and vehicle type, day or night.
2. Facial Recognition Alerts - Instantly identifies persons of interest.
3. Full Frontage Protection - 180° wide-angle boundary coverage.
4. Visual Deterrence - High-intensity strobes visible hundreds of metres away.
5. Direct Police Link - Secure wireless integration with police covert platform.

HOW IT WORKS

1. Road camera IDs passing vehicles - number plates, make, model, and colour.
2. Vehicles instantly checked by police covert database or if offender wanted.
3. Real-time alerts are instantly sent to police patrols and monitoring centre.
4. Police units are automatically dispatched - no need to call 000.
5. Advanced facial recognition identifies faces and distinguishing marks.
6. 180° boundary cameras detect vehicles or intruders approaching property.
7. Upon detection triggers, strobe lights, voice warnings, and sirens activate

SAVES TIME – REDUCES THEFT

1. Pre-emptive Crime Prevention – Detect threats before intrusion occurs.
2. Instant Police Coordination – Real-time data feed to police covert systems.
3. Asset Protection – Reduce theft, vandalism, and downtime losses.
4. Visible Deterrence – Sirens and lights show your site is under live surveillance.
5. Insurance Advantage – Active, monitored protection reduces claim risk.
